

Longitude Solutions Advises on Dutch Longevity Transaction

Longitude Solutions LLC (Longitude) was the exclusive adviser to Nationale-Nederlanden (NN) on an index-based longevity transaction.

The transaction is designed to reduce NN's exposure to future mortality improvements in the Netherlands, helping to manage the financial impact of pension and annuity policyholders living longer than expected.

The hedge partially protects NN against longevity trend risk from EUR ~3bn of liabilities.

Longitude advised on the structuring, marketing, documentation and execution of the transaction.

Longitude Solutions was founded in 2016, to provide advisory and transaction services to longevity risk market participants.
